Add my name to the list of people who were skeptical about one more study aide, ordered it anyway, and are REALLY GLAD they did.

I got your card in the mail and wondered "Who the heck is this?" I asked a couple of people that had ordered the book before and decided to take a chance. As your card says: What's another fifty bucks?

Well, I am glad I got the book. It was just the right size with just the right amount of information. I was sooooo tired of studying but I knew I had to keep on. The TexasBarFlash was perfect for those times when I was tired of looking at the pile of books the other companies provide. It was PERFECT for the last few weeks before the exam when I was just trying to remember every bit of information that I could.

In fact, I wish I had ordered it while in law school . . . the information is perfect for answering questions where you know you should throw in a bit of procedure or practical knowledge but can't always remember everything.

The bottom line? The book was well worth the money and I am a satisfied customer who passed the bar exam on the very first try! Thanks.
